Election/Restrictions

Applicant's election with traverse of Group II in the reply filed on 3/8/04 is acknowledged. The traversal is on the ground(s) that it is improper to restrict intra-claim. Although not agreeing with this entirely, the present restriction requirement is hereby withdrawn and the generic claim would be examined according to MPEP 803.02 for Markush-type claims, where there is an election of species involved.

As a result, only claim 1 would be examined to a reasonable extent necessary to determine allowability; hence claims 2-278 are being temporarily held withdrawn from further consideration pending the outcome of claim 1.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,320,050. This is a double patenting rejection.
